

## FOOD SAFETY LEVEL 1 Introduction to HACCP

Discover the importance of the role that HACCP plays in your business and learn what is needed to design functional Food Safety Management Systems

This course has been designed for those who are new to food safety, and who need an introduction and overview of what HACCP is all about. It will assist those who need a brief overview and basic understanding of the Codex-based HACCP concept and its application and practical use in any food manufacturing environment. This will form a solid building block for further development in other areas of food safety training.
